

Leica S8 APO TLB

(Reference #: S8-APO-TLB)

List price: \$4684

Your price: \$3497

The Leica S8 APO is a Greenough stereomicroscope with a fully apochromatic optical system, which has superb color fidelity and resolution. The system has an 8:1 zoom range and magnification range of 1x – 8x which is 10x – 80x with 10x eyepieces. The built in photoport allows you to connect a DSLR or C-mount camera via a DSLR adapter or C-mount (sold separately). The compact incident and transmitted light base is great for both transmitted and reflected light applications.

Leica S8 APO components include:

- Leica S8 APO stereomicroscope 1x – 8x magnification range, 75mm working distance
- Leica 10x fixed eyepiece and Leica 10x adjustable eyepiece
- Leica S-Series transmitted /reflected light base
- Dust cover
